## Education

- 2015–Present **Ph. D.**, Arizona State University, Tempe, Arizona, *Electrical Engineering*.  
CGPA: 3.90
- 2015–2018 **MSE**, Arizona State University, Tempe, Arizona, *Electrical Engineering*.  
CGPA: 3.90
- 2009–2014 **B. Sc.**, Bangladesh University of Engineering and Technology, Dhaka, Bangladesh, *Electrical Engineering*.  
CGPA: 3.83

## Professional Experience

- August, 2015–Present **Graduate Research Assistant**, Laboratory for Energy and Power Solutions, Arizona State University.  
  - Synthetic distribution feeder development
  - Application of blockchain in Transactive Energy
  - Cyber-security of inverter dominated distribution networks**Co-Instructor**, for *Microgrid Design and Operation* course.  
**Teaching Assistant**, for *Electric Grid Operator Training* course.
- May, 2018–Aug, 2018 **Research Intern**, Grid Integration Group, Lawrence Berkeley National Lab, Berkeley, USA.  
Developed a MATLAB and Python based OpenDSS simulation environment for simulating cyber-attack scenarios on smart inverters for power distribution systems.
- June, 2014–July, 2015 **Research Assistant**, Pi Labs Bangladesh, Bangladesh.  
  - Designing PCB Boards for industrial projects
  - R&D for new product development
  - Quality Testing for Manufactured Products
- June, 2014–July, 2015 **Lecturer**, Sonargoan University, Bangladesh.  
  - Preparing lecture materials for undergraduate students
  - Conducting lectures, and exam preparation

## Technical Skills

- Programming Python, MATLAB, NodeJS, C, Java
- Power System OpenDSS, GridlabD, XENDEE, DSATools (PSAT, TSAT, SSAT), PSLE, PSSE, MAT-  
Power, PSCAD, XENDEE
- Optimization AMPL, Google OR Solver, DERCAM
- Blockchain Hyperledger Fabric, Hyperledger Caliper, Hyperledger Explorer

Engineering    Simulink, PSpice, Proteus, Cadence, PLECS, Arduino, Raspberry PI  
Miscellaneous    Git, Bash, Linux, LATEX, MS Office, Docker

## Projects

### **Design of an Universal Charge Controller**, Funded by *IEEE Foundation*.

- Designed an universal charging circuit for 12-24V Battery Systems
- Designed the discharging circuit for the universal charge controller

### **Cyber-security by Automatic Grid Reconfiguration**, Funded by *Department of Energy*.

- Developed feedback control model for Smart Inverters
- Developed simulation tool (OpenDSS and MATLAB/Python) for simulating cyber-attack scenarios on power distribution network

### **Distributed Security of Grid Edge Devices**, Funded by *Office of Naval Research*.

- Developed a Transactive Energy framework using Hyperledger Fabric
- Integrated distributed market and verification algorithms with Blockchain

### **Development of Synthetic Distribution Feeders**, Funded by *Office of Naval Research & National Science Foundation*.

- Developed software framework for generating synthetic distribution feeder using OpenStreetMap
- Developed framework for generating unbalanced distribution networks

### **Development of Microgrid on a Desk**, Funded by *Office of Naval Research STEM*.

- Developed power electronic design for *Microgrid on a Desk* for K3-K12 students
- Developing online course contents for Power Transmission and Distribution Systems

### **Power System Economic and Transient Simulator Development**, Funded by *Incsys & PowerData*.

- Developed a JAVA based transient simulator using OpenPA library
- Developed open source SCED and SCUC using Google OR solver

### **GIS Translator Development for Off-grid Villages of Niger**, Funded by *Powergen*.

- Developed a tool to convert ArcGIS power network models to OpenDSS models
- Developed a tool for visualizing voltage information over GIS Map

- Training
- Instructor, ASU Microgrid Boot Camp for US Veterans: XENDEE Session, (March 2016- Present)
  - Co-Instructor, Hands on Training Session for Army Reserve Base Managers, November 6, 2017
  - Co-Instructor, ASU Microgrid Mini Boot-Camp, 86th Military Operations Research Society (MORS) Symposium, Naval Postgraduate School, 19th June, 2018; url:<https://www.mors.org/Symposium/86th-Symposium>

- Volunteering Activities
- Student Lead for IEEE PES voluntary project on developing an open source design for 10 Watt and 100 Watt Solar Charge Controller for Rural Areas of Bangladesh, 2013-2014
  - Participated in volunteering for Project C.U.R.E. with my research lab
  - Student Volunteer for 2019 ACE e-Energy conference
  - Co Vice Chair, ASU IEEE PES Student Chapter (May 2016-June 2017)

## Awards

- Dean's List merit scholarship (2012-2014) given by the dean of EEE faculty of BUET.
- Technical Board Scholarship (2008-2014) given by Government of Bangladesh.
- Educational Board Scholarship (2006-2008) given by Government of Bangladesh.
- Primary Board Scholarship (2002-2004) given by Government of Bangladesh.

## Professional Membership

- Student member, IEEE (2012-Present)
- Student member, IEEE Power and Energy Society (2013-Present)
- Student member, IEEE Signal Processing Society (2018-Present)
- Member, IEEE Smart Village Technical Committee (2016-Present)
